

CHAPTER IV

NON-AGRICULTURAL ESTABLISHMENTS

This chapter discusses significant findings concerning non-agricultural establishments as emerged from the results of the Fifth Economic Census. A non-agricultural establishment for the purpose of Fifth Economic Census has been defined as an establishment which was engaged in Mining and Quarrying; Manufacturing; Electricity, gas and water supply. Construction; Sale, Maintenance & Repair of motor vehicles, motorcycles; Wholesale trade; Retail Trade; Restaurants and Hotels; Transport and storage; Post and Telecommunications; Financial intermediation; Real estate, Renting & Business Services; Public administration and defence, compulsory social security; Education; Health and social work; Other community, social and personal service activities etc. i.e. activities corresponding to sections C to O and Q of NIC 2004. In short establishments other than the Agricultural establishments are Non-Agricultural establishments.

4.2. ESTABLISHMENTS

The distribution of non-agricultural establishments and employment therein by types of establishments with rural-urban break up is given in Table 4.1.

Table 4.1: Number of Non-agricultural establishments and Employment therein - All India

Note

- (i) Figures in single brackets indicate average number of persons per establishment
- (ii) Figures in double brackets indicate percentage of female/hired worker to total employment.
- (iii) Percentage total may not tally due to rounding off
- (iv) OAE: Own Account Establishments

There were 35.75 million non-agricultural establishments (19.83 million in Rural area and 15.92 million in Urban area) in the country, which accounted for 85.46% of the total establishments. Out of these, 21.81 million (61.01%) were own account establishments and the remaining about 13.94 million (38.99%), were establishments with hired workers.

Out of 19.83 million non-agricultural establishments located in Rural area, 13.26 million were own account establishments and remaining 6.56 million were establishments with hired workers. Similarly out of 15.92 million non-agricultural establishments in the Urban area 8.55 million were own account establishments and the remaining 7.37 million were establishments with hired workers.

Out of a total of 21.81 million own account non-agricultural establishments in the country 13.26 million (60.81%) were located in rural areas and remaining 8.55 million (39.19%) were located in urban area. Again out of 13.94 million non-agricultural establishments with hired workers 6.56 million (47.10%) were in rural area and the remaining 7.37 million (52.90%) were located in urban area.

4.3. EMPLOYMENT

About 89.99 million persons worked in non-agricultural establishments, which constitute 89.18% of the total employment. Of these, 27.89 million persons (31.00%) were employed in own account establishments and the remaining 62.10 million (69.00%) in establishments with hired workers. About 46.55% (41.89 million) of the total employment in non-agricultural sector was engaged in rural areas, whereas 53.45% (48.10 million) of the total employment in non-agricultural sector was in urban areas.

There are 52.19 million hired workers working in the non-agricultural establishments which constitute 58.00% of total workers in the non-agricultural sector. 40.47% of them were found in the rural areas.

Female workers (16.21 million) constituted 18.02% of total employment in non-agricultural establishments. Proportion of female employment in non-agricultural establishments was found to be more or less similar in establishments with hired workers (18.97%) as well as in own account establishments (15.90%).

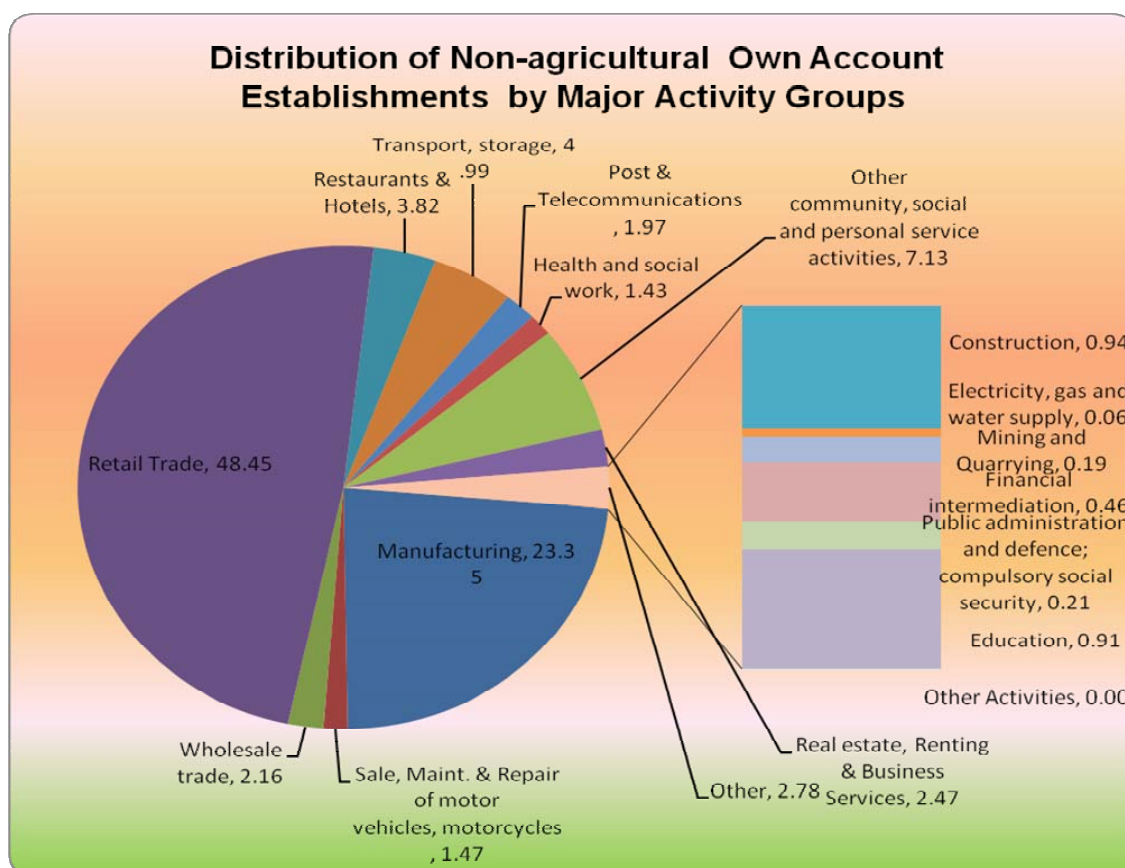

There were 1.89 million child workers, which constituted 2.10% of the total employment in non-agricultural establishments. Proportion of child workers was more in rural areas (54.34%) than in urban areas (45.66%).

An average employment of 2.52 persons was observed in non-agricultural establishments. It was found to be higher in urban areas (3.02) than in rural areas (2.11). Own account establishments and establishments with hired workers had an average employment of 1.28 persons and 4.45 persons respectively.

4.4 NON-AGRICULTURAL OWN ACCOUNT ESTABLISHMENTS:

4.4.1 ESTABLISHMENTS BY MAJOR ACTIVITY GROUPS

There were 21.81 million own account establishments, constituting 61.01% of the non-agricultural establishments. The distribution of non-agricultural own account establishments by 17 major activity groups and employment therein has been given in table 4.2.

It has revealed that 'retail trade', 'manufacturing' and 'other community, social and personal service activities' were the three most important activity groups which attracted the largest number of own account establishments. However the percentage share of 'Other community, social and personal service activities' was much less compared to that of 'retail trade' and 'manufacturing'. Retail trade dominated among all major activity groups netting 10.57 million own account establishments accounting for 48.45% of the total non-agricultural own account establishments. It was followed by the major activity group 'manufacturing' netting 5.09 million establishments and 'Other community, social and personal service activities' with

1.55 million establishments. In terms of percentage, their shares were 23.35% and 7.13% respectively.

In rural areas own account establishments followed the all India pattern. The above three activity group showed the same ranking. Of these activity groups 'retail trade' singly accounted for 46.52% of the total number of establishments, followed by 'manufacturing' and 'Other community, social and personal service activities' sharing 26.98% and 7.52% of the establishments respectively.

In urban areas the activity group 'retail trade' had the largest share with 51.44% of the establishments. Activity group 'manufacturing' had the second position with 17.73% share of the establishments and activity group 'Other community, social and personal service activities' held the third position with 6.52 % of the total non-agricultural own account establishments.

4.4.2 EMPLOYMENT BY MAJOR ACTIVITY GROUPS

Own account establishments gave employment to 27.89 million persons, which is 31.00% of total employment in non-agricultural establishments. The trend of percentage share follows the same pattern as that of establishments with hired workers. Employment in 'retail trade' (12.66 million) constituted 45.40% of the total employment followed by 'manufacturing' engaging 7.53 million workers (27.00%). Activity group 'Other community, social and personal service activities' claimed the third position with 2.06 million workers constituting 7.39%. Female employment (2.28 million) was largest in 'manufacturing' accounting for 51.35% of the female employment in non-agricultural own account establishments.

In rural areas employment in own account establishments too followed the all India pattern. Activity group 'retail trade' singly accounted for 43.12% of the employment, followed by 'manufacturing' 31.01% of the employment and 'other community, social and personal service activities' sharing 7.66% employment. In rural areas activity group 'manufacturing' had the largest share (54.34%) of female workers.

In urban areas the activity group 'retail trade' had the largest share of employment (49.13%), followed by activity groups 'manufacturing' and 'other community, social and personal service activities' with 20.46% and 6.95% of the employment respectively. In urban areas also activity group 'manufacturing' had the largest share (43.45%) of female workers.

4.4.3 EMPLOYMENT RATE

On an average, the rate of employment in own account establishments was 1.3 persons, which was more or less uniform in rural and urban areas with urban being slightly on the lower side. Among the major activity groups, employment per establishment (rural and urban combined) was found more in the 'other activities' (1.8) followed by 'public administration and defence; compulsory social security' & 'mining and quarrying', each showing an employment rate of 1.6. Employment rate was found to be least (1.1) in activity group 'construction', 'transport, storage' and 'post & telecommunications'. It was found that employment rate in major activity group 'retail trade', which accounted for the largest number of establishments, was

only 1.2. Employment rate was highest in ‘other unspecified activities’ in rural areas whereas in case of urban areas it was ‘public administration and defense; compulsory social security’.

4.4.4.1 Non-perennial establishments

It has been observed that there were 0.93 million non-perennial or seasonal own account establishments, which constituted 4.24% of the total own account non-agricultural establishments. Out of these, 0.35 million establishments accounting for 38.34%, were engaged in 'retail trade'. This group was followed by 'manufacturing' netting 0.35 million establishments (37.38%). These two groups together constituted 75.72% of the total non-perennial own account establishments.

In rural areas out of 13.26 million own account establishments, 0.74 million constituting 5.61%, were non-perennial. Among these non-perennial establishments the activity group 'manufacturing' accounted for the largest share (40.82%), followed by 'retail trade' (35.80%). These two groups together constituted 76.62% of the total non-perennial own account establishments in rural area.

There were 0.18 million non-perennial own account establishments in urban areas constituting 2.13% of the total urban own account establishments. Out of these 48.73% establishments were in 'retail trade', followed by 'manufacturing' (23.30%). These two activity groups together accounted for about 72.03% of the total non-perennial own account establishments that operated in urban areas.

4.4.4.2 Premises Status

About 4.82 million non-agricultural own account establishments (22.09%) operated without fixed premises. Among these, 'retail trade' itself accounted for 2.31 million establishments with a share of 48.02% of the total non-agricultural own account establishments. However looking at the percentage share of establishments operating without premises to the total within a single major activity group, the activity 'transport & storage', topped the list with 82.68% share numbering 0.90 million establishments operating without any fixed premises out of the total of 1.09 non-agricultural own account establishments.

In rural areas 2.97 million (22.39%) own account establishments operated without premises. Among these establishments activity group 'retail trade' dominated with 45.07% share amounting to a total of 1.34 million establishments. Considering within activity, 85.80% of the total establishments under the major activity 'transport & storage' was found to be operated without any fixed premises.

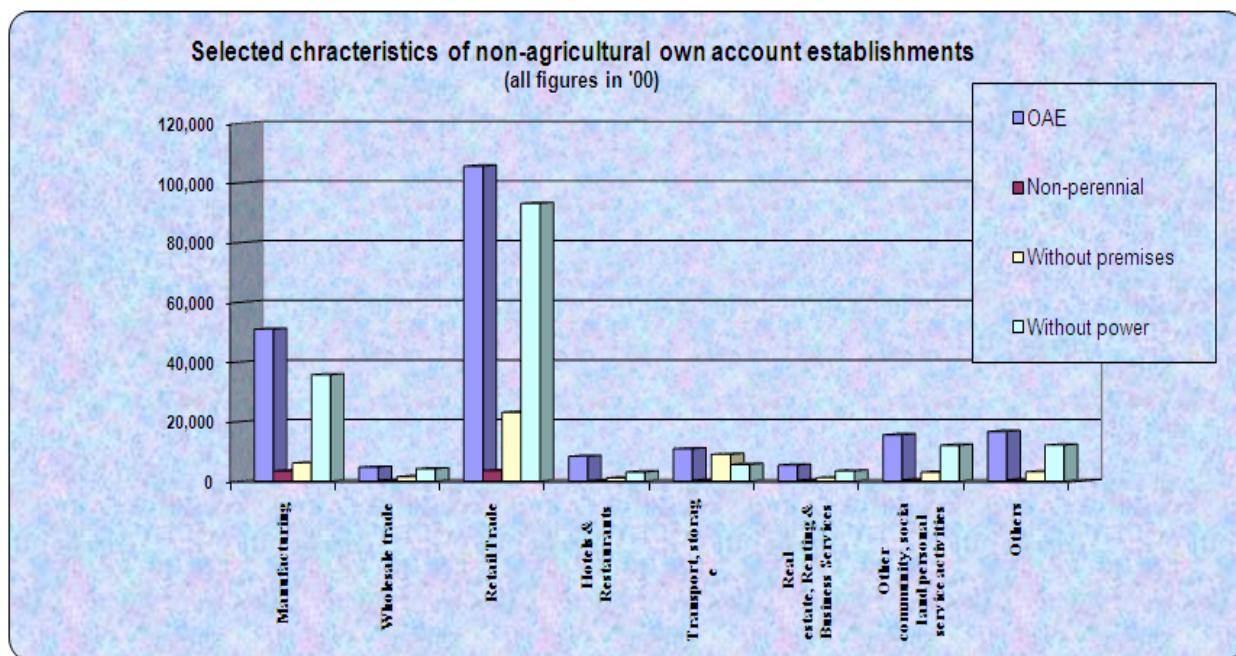

In urban areas 1.85 million (21.63%) own account establishments operated without premises. Among these establishments activity group 'retail trade' dominated with 52.76% share amounting to a total of 0.98 million establishments. Considering within activity, 78.23% of the total establishments under the major activity 'transport & storage' was found to be operated without any fixed premises.

4.4.4.3 Power/Fuel Used

About 16.93 million non-agricultural own account establishments carried out their economic activity without using any power/fuel. Among these, 'Retail trade' group with 9.32 million establishments dominated all other groups and constituted 55.02% of the total non-agricultural own account establishments without power.

About 10.39 million rural own account establishments operated without power/fuel. Most of these establishments were engaged in 'retail trade', numbering 5.53 million. More than 90% of the total establishments of the major activity groups 'financial intermediation' and 'construction' were found to be operating without any power/fuel.

In urban areas, 6.54 million establishments were found to be working without any power/fuel. Majority of these establishments (57.81%) were engaged in 'retail trade'. Considering within activity, 88.69% of the total establishments under the major activity 'construction' were found to be operated without the use of any power/fuel.

4.4.4.4 Social Group of Owner

The Fifth Economic Census has revealed that percentage shares of own account non-agricultural establishments owned by persons belonging to SC, ST and OBC categories were 10.59% (2.31 million), 3.82% (0.83 million) and 41.07% (8.96 million) respectively. 'Retail trade' was the most preferred activity of all the three categories of social group, followed by 'manufacturing' and 'other community, social and personal service activities'. These three activity groups together accounted for 79.09%, 83.04% and 80.99% of the total own account establishments owned by persons belonging to scheduled caste, scheduled tribe and other backward classes respectively.

In rural areas 11.85 %(1.57 million), 4.77 %(0.63 million), and 43.47 %(5.77 million) of own account non-agricultural establishments were owned respectively by persons belonging to SC, ST and OBC.

The shares of own account non-agricultural establishments owned by persons belonging to social groups SC, ST & OBC in urban areas were 8.63% (0.74 million), 2.36%(0.20 million), and 37.35%(3.19 million) respectively. More than 75% of these establishments were engaged in ‘retail trade’, ‘manufacturing’ and ‘other community, social and personal service activities’.

4.4.5 ESTABLISHMENTS BY SIZE-CLASS OF EMPLOYMENT

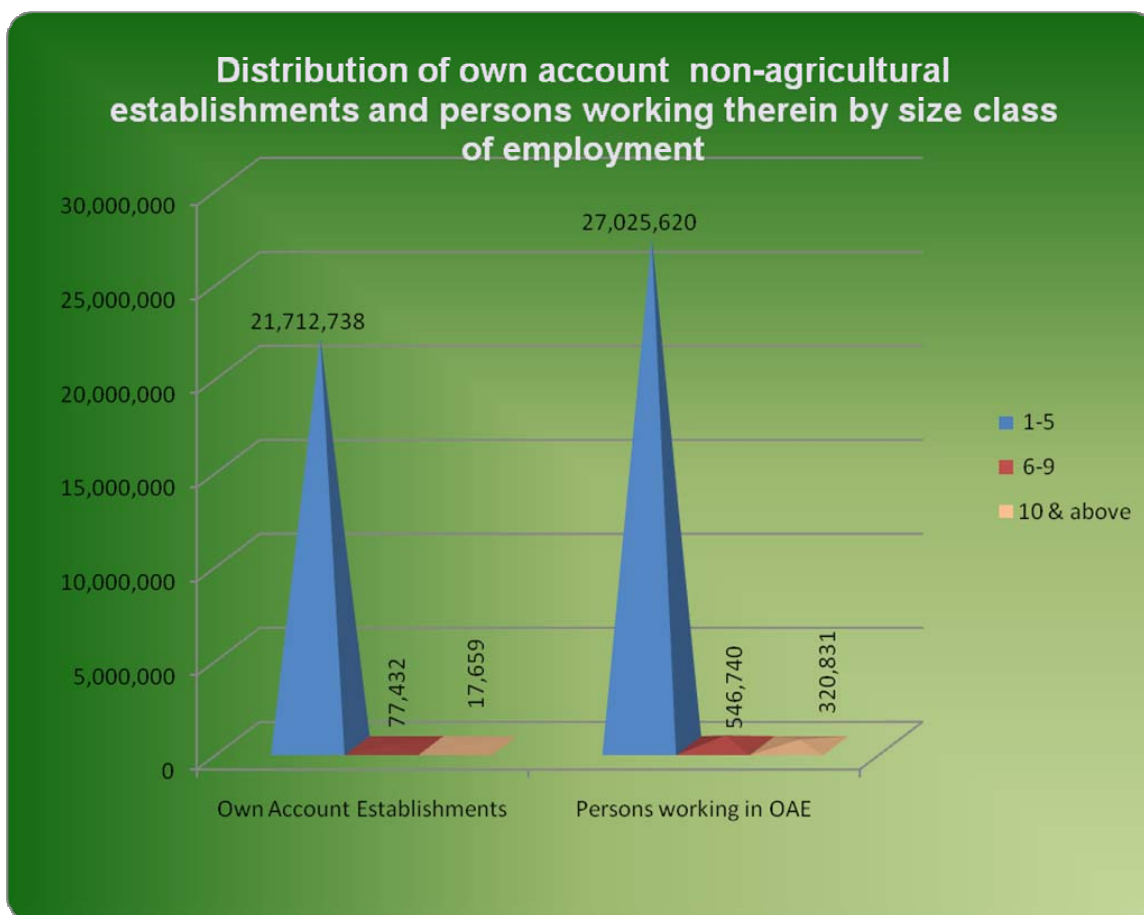

The distribution of non-agricultural own account establishments by size-class of total employment is given in the Table 4.6.

Table 4.6: Distribution of Own Account Non-agricultural Establishments and Persons usually working therein by size-class of total employment
(Figures in absolute number)

Item	Size class of total employment			
	1-5	6-9	10 & above	All Classes
(1)	(2)	(3)	(4)	(5)
Rural				
i) Own Account Establishments	13,198,214	50,290	13,669	13,262,173
	(99.52)	(0.38)	(0.10)	(100.00)
ii) Persons usually working	16,714,270	356,184	231,674	17,302,128
	(96.60)	(2.06)	(1.34)	(100.00)
Urban				
i) Own Account Establishments	8,514,524	27,142	3,990	8,545,656
	(99.64)	(0.32)	(0.05)	(100.00)
ii) Persons usually working	10,311,350	190,556	89,157	10,591,063
	(97.36)	(1.80)	(0.84)	(100.00)
Combined				
i) Own Account Establishments	21,712,738	77,432	17,659	21,807,829
	(99.56)	(0.36)	(0.08)	(100.00)
ii) Persons usually working	27,025,620	546,740	320,831	27,893,191
	(96.89)	(1.96)	(1.15)	(100.00)

Note: (i) Figures in brackets are percentage to all classes respectively

(ii) Percentage may not tally with all due to rounding off

It has been revealed that own account establishments in the smaller size-class of 1-5 employment accounted for 99.56% of the total non-agricultural own account establishments numbering 21.71 million. These smaller establishments provided employment to 96.89% (27.03 million) of the total employment in the non- agricultural own account establishments. Only 0.36% of the establishments and 1.96% of employment were in the employment size-class of 6-9 persons and above. Only 0.08% establishments providing 1.15% employment was found in the higher size class of 10 or more workers.

4.4.6 INTER-STATE COMPARISON

4.4.6.1 Own Account Establishments

State/UT-wise distribution of non-agricultural own account establishments by rural-urban location is given in Table 4.7.

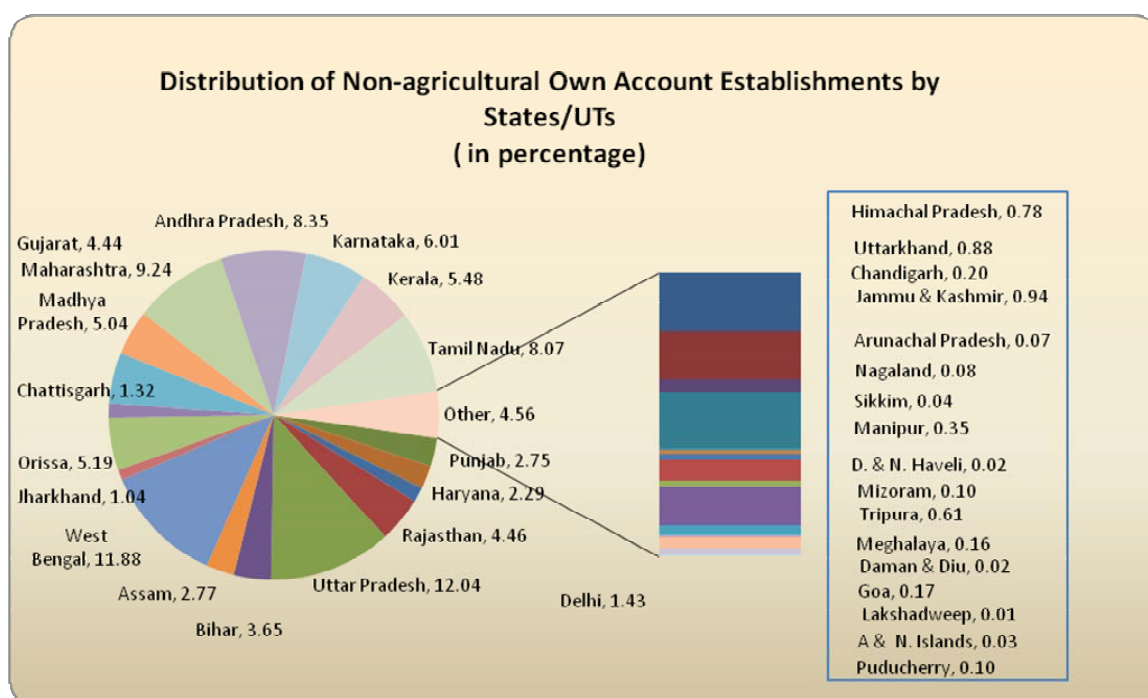

Table 4.7 Distribution of Non-agricultural Own Account Establishments by States/UTs
(Figures in absolute number)

Note: Percentage total may not tally with all India due to rounding off.

The table has revealed that Uttar Pradesh had the maximum number of non-agricultural own account establishments numbering 2.63 million followed by West Bengal with 2.59 million and Maharashtra with 2.02 million. Their shares were 12.04%, 11.88% and 9.24% respectively of the total non-agricultural own account establishments of the country. The other States, which accounted for 5% or more of total number of non-agricultural own account establishments, were Orissa, Madhya Pradesh, Andhra Pradesh, Karnataka, Kerala and Tamil Nadu, sharing 5.19%, 5.04%, 8.35%, 6.01%, 5.48% and 8.07% establishments respectively.

In rural areas West Bengal had the largest share (13.88%) of non-agricultural own account establishments with 1.84 million establishments, followed by Uttar Pradesh (11.34%) and Andhra Pradesh (9.50%). The other states which contributed more than 5% at all India level in rural areas were Orissa (6.82%), Maharashtra (7.20%), Karnataka (6.10%), Kerala (6.54%), and Tamil Nadu (7.29%).

In urban areas Uttar Pradesh was at the top with 1.12 million establishments, followed by Maharashtra with 1.06 million and Tamil Nadu with 0.79 million establishments. In terms of percentage share of these States in the total it was 13.12%, 12.41% and 9.28% respectively. There were five more States viz. West Bengal, Madhya Pradesh, Gujarat, Andhra Pradesh and Karnataka, each of which had more than 5% share in the total own account establishments located in urban areas.

4.4.6.2 Employment

Distribution of persons who had worked in non-agricultural own account establishments together with component for female and child workers has been given in Table No.4.8 state-wise with rural-urban bifurcation. It was observed that Uttar Pradesh had the maximum number of workers (3.38 million), constituting 12.13% of the total workforce, followed by West Bengal and Andhra Pradesh with 3.30 million and 2.49 million workers respectively.

Location wise analysis revealed that in rural areas West Bengal was at the top with 2.36 million workers constituting 13.67%. Uttar Pradesh however came in number two position with 1.97 million workers. Andhra Pradesh remained at number three position with 1.76 million workers. However, in urban areas also Uttar Pradesh dominated the employment scene netting 1.42 million workers constituting 13.36%, followed by Maharashtra (1.27 million) and Tamil Nadu (0.96 million workers).

4.4.6.3 Female Workers

Female workers (4.43 million) constituted 15.90% of the total workers in non-agricultural own account establishments. 72.53% of the female workers were employed in rural areas. State-wise analysis has revealed that Andhra Pradesh (0.63 million female workers) was at the top, followed by Tamil Nadu and West Bengal with 0.54 million and 0.52 million female workers respectively.

Percentage distribution of female workers within the state has however revealed that Mizoram was at the top registering 53.09% of the workers as female workers, followed by Manipur (42.44%) and Meghalaya (38.00%). Percentage of female workers was the lowest in Chandigarh (3.41%). Among bigger states, Andhra Pradesh, Karnataka and Kerala, each of them were found to be employing around 25% female workers.

4.4.6.4 Child Workers

There were 0.45 million child workers employed in non-agricultural own account establishments throughout the country. They constituted 1.61% of the total workforce in those establishments. About 72.80% of child workers were employed in rural areas and the remaining 27.20% in urban areas. Among the States/UTs, largest number of child workers was employed in Uttar Pradesh (0.07 million), followed by West Bengal and Maharashtra.

4.4.6.5 Rate of Employment

At the all India level rural-urban combined employment rate in non-agricultural own account establishments was 1.28 employees per establishment. The employment rate was found to be more or less uniform throughout all State/UTs. However, it was highest in Nagaland (1.69), followed by Madhya Pradesh (1.50) and Manipur (1.48).

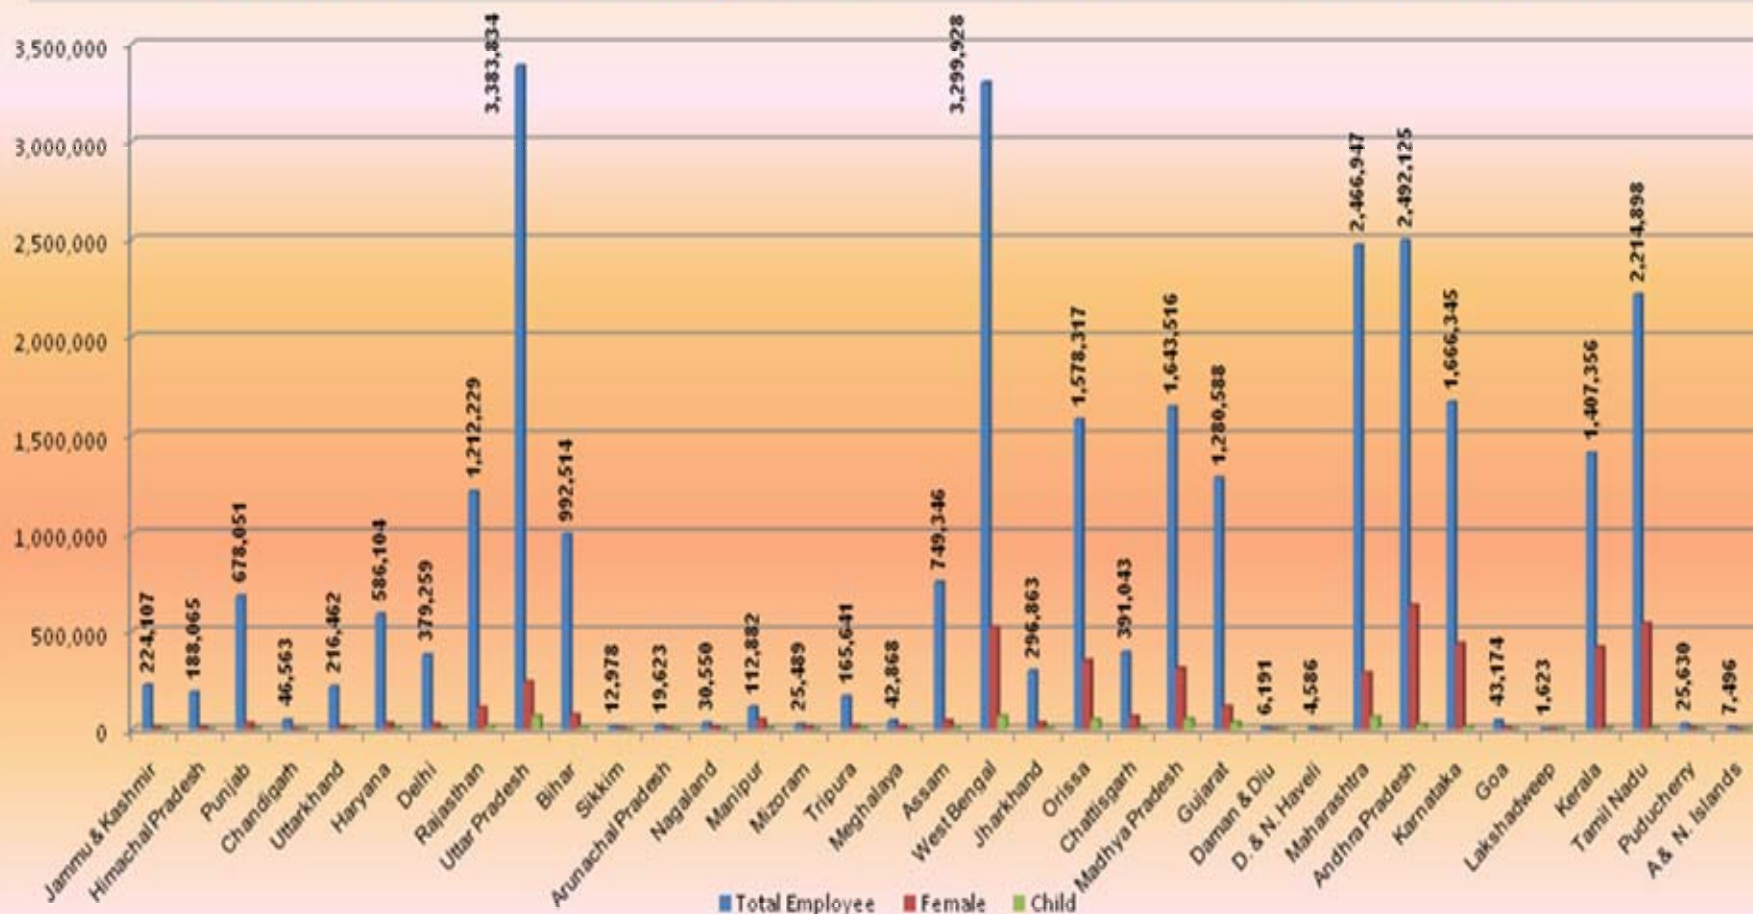

Table 4.8: Number of persons usually working in Non-agricultural Own Account Establishments by States/UTs
(Figures in absolute number)

35	A & N. Islands	5,847	8	1	5,856
All State/UTs		21,712,738	77,432	17,659	21,807,829

It has been observed that in all the States/UTs, distribution pattern of the establishments over different size-classes of employment was more or less the same, i.e, bulk of the own account establishments was in the lowest employment size-class of 1-5 persons, followed by the next higher size-classes of employment i.e. 6-9 and 10 & above.

Note: State/UTs with less than 40,000 non-agricultural own account establishments (with 1-5 workers) are shown separately for clearer presentation.

Note: State/UTs with less than 50 non-agricultural own account establishments (with 10 or more workers) are shown separately for clearer presentation.

4.5 NON-AGRICULTURAL ESTABLISHMENTS WITH HIRED WORKER:

4.5.1 ESTABLISHMENTS WITH HIRED WORKER

The distribution of the non-agricultural establishments with hired workers and employment therein by major activity groups with rural-urban break-up for the country as a whole is given in Table 4.10.

There were 13.94 million non-agricultural establishments with hired worker in the country, which constituted 38.99% of the total non-agricultural establishments. It has been revealed that 'retail trade', 'manufacturing' and 'education' were the three most significant major activities that shared 63.55% of the total non-agricultural establishments. Activity group 'retail trade' dominated among all major activity groups netting 4.39 million establishments, accounting for 31.47% of the total non-agricultural establishments. This was followed by the

major activity groups 'manufacturing' and 'education' with 3.23 million (23.17%) and 1.24 million (8.91%) establishments respectively.

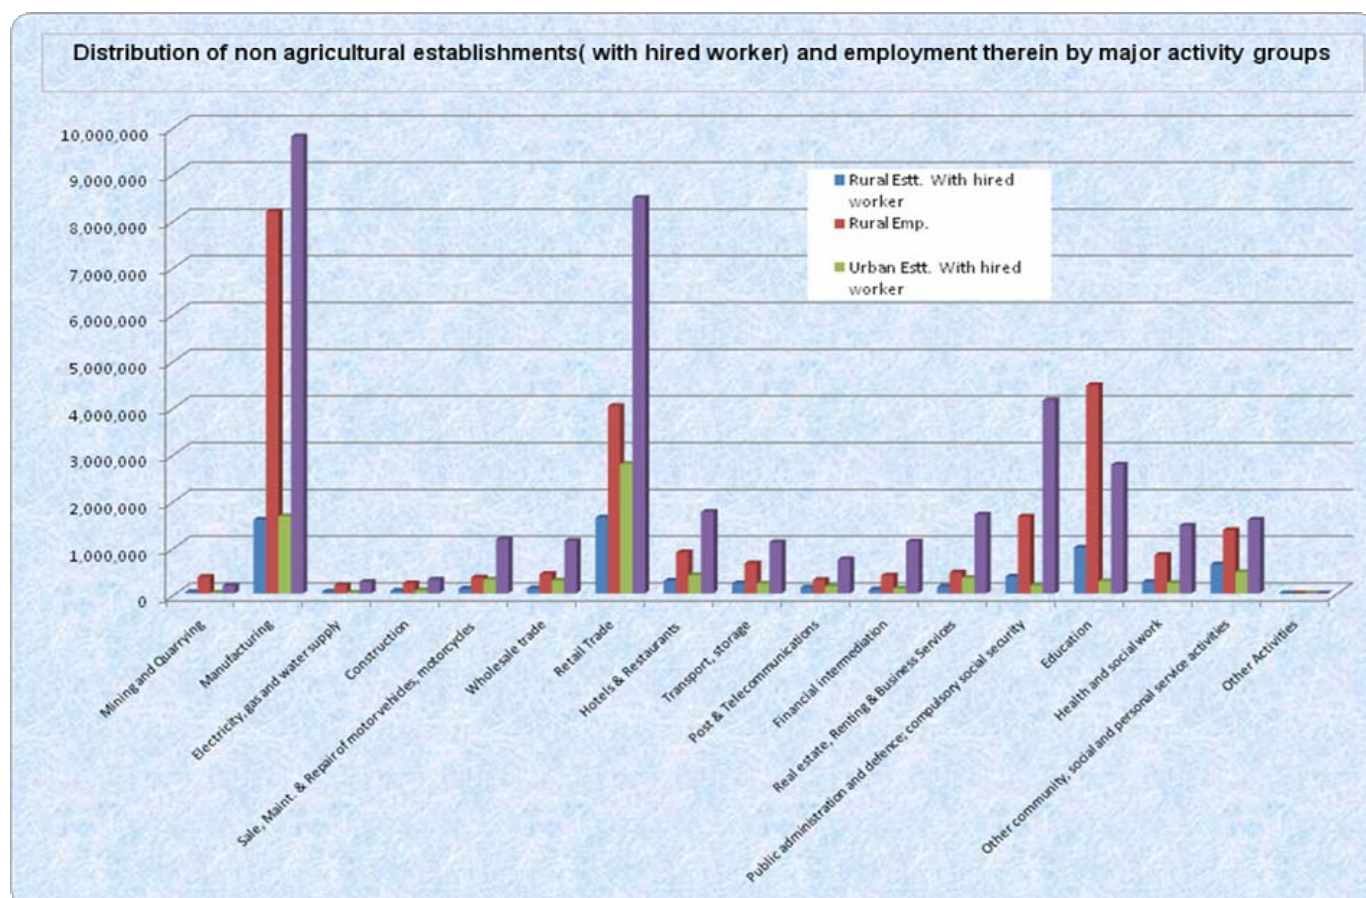

Analysis by location of the establishments with hired worker has revealed that rural pattern was nearly the same as all India pattern. The activity group 'retail trade' accounted for 24.66% of the non-agricultural establishments with hired workers, followed by 'manufacturing' and 'education' with 24.08% and 14.96%. In urban areas activity group 'retail trade' was at the top sharing 37.54%, followed by 'manufacturing' sector with 22.35%. The 'Other community, social and personal service activities' came in the third position with 6.15% share.

Note:

Estt. : Establishments with hired worker **Emp:** Employments **Emp. Rate** : employment per establishment.

4.5.2 EMPLOYMENT

About 60.40% of the employment in the non-agricultural establishments with hired workers was found in the urban areas and the rest in the rural areas. In terms of employment generated activity group 'manufacturing' was at the top, absorbing 17.95 million persons (28.91%), followed by 'retail trade' and 'education' absorbing 12.47 million and 7.21 million workers respectively.

In rural areas, the activity group 'manufacturing' accounted for 33.22% of the total employment with 8.17 million workers, followed by 'education' and 'retail trade' with 18.11% and 16.30% of employment respectively. In urban areas also the activity group 'manufacturing' dominated the scene with 26.08% share of employment, followed by the activity groups 'retail trade' (22.57%) and 'public administration and defence; compulsory social security'(11.02%).

4.5.3 EMPLOYMENT RATE

Average employment in non-agricultural establishments with hired workers for all the activities taken together was found to be 4.45 persons. It was highest in activity group ‘mining & quarrying’ (12.12 persons per establishment), followed by ‘public administration and defence; compulsory social security’ (10.94 persons) and ‘electricity, gas and water supply’ (8.21 persons). Employment rate was least (2.73) in ‘other community, social and personal service activities’. In rural areas the highest employment rate was found in ‘mining and quarrying’ (11.89 persons) whereas ‘public administration and defence; compulsory social security’ had highest employment rate (24.44 persons) in urban area.

4.5.4 TYPE OF OWNERSHIP

The distribution of non-agricultural establishments with hired workers by type of ownership and employment therein with rural-urban break-up has been given in Table 4.11.

Table 4.11 : Number of Non-agricultural Establishments(with hired worker) and Employment therein by type of ownership and by location
(Figures in absolute number)

4.5.4.1 Establishments

It is observed that 10.87 million non-agricultural establishments with hired worker constituting 77.98% were owned by 'private unincorporated proprietary & private unincorporated partnership', 2.19 million constituting 15.71% were owned by 'Govt. & PSUs', 0.60 million(4.27%) were owned by 'private NPI' and the remaining 2.04% (0.28 million) were owned by 'private others'.

In rural areas 'private unincorporated proprietary & private unincorporated partnership' group owned the largest number of non-agricultural establishments with hired worker (65.37%), followed by 'Govt. & PSUs' (26.46%), 'private NPI' (5.94%) and 'private others'(2.22%). In urban areas also the pattern was similar with 'private unincorporated proprietary & private unincorporated partnership' group claiming 89.20% of the total establishments with hired worker.

4.5.4.2 Employment

Non-agricultural establishments with hired worker owned by 'private unincorporated proprietary & private unincorporated partnership' employed 42.62 million persons forming 68.64% of the total employment in all non- agricultural establishments with hired worker. 'Govt. & PSUs', 'private others' and 'private NPI' absorbed 23.88%, 3.93% and 3.56% workers respectively.

There were 52.19 million workers in establishments who were on wage employment. It accounted for 84.05% of the total employment in total non-agricultural establishments with hired worker. Their share was 40.47% in rural and 59.53% in urban areas. 63.55% of the hired employees were absorbed in non-agricultural establishments with hired worker owned by 'private unincorporated proprietary & private unincorporated partnership' and 28.41% in 'Govt. & PSUs' owned establishments. Non-agricultural establishments with hired worker

owned by 'private non-profit institutions' and 'private others' absorbed only 3.69% and 4.35% hired workers respectively.

In all, there were 11.78 million female employees forming 18.97% of total employment in non-agricultural establishments with hired worker. 50.79% of them were working in the rural areas whereas the rest 49.21% were in urban areas. About 61.28% of the female workers were employed in non-agricultural establishments with hired worker owned by 'private unincorporated proprietary & private unincorporated partnership', 29.85% in 'Govt. & PSUs' owned establishments, 4.47% in 'private non-profit institutions' and the remaining 4.40% in establishments owned by 'private others'.

Maximum (92.63%) of the female workers were wage earners. Among these, 58.67% were absorbed in establishments owned by 'private unincorporated proprietary & private unincorporated partnership', 32.23% in 'Govt. & PSUs' owned establishments, 4.52% in 'private non-profit institutions' and remaining 4.58% in establishments owned by 'private others'.

4.5.5 FEMALE AND CHILD WORKERS

Tables 4.12, 4.13 and 4.14 give the distribution of female and child workers in non-agricultural establishments with hired workers by major activity groups.

Table No. 4.12: Number of persons usually working in Non-agricultural Establishments (with hired worker) by Major Activity Groups – Rural
(Figures in absolute number)

4.5.5.1 Female workers

It has been observed from the Table No. 4.14 that female workers were mostly absorbed in the activity groups 'manufacturing', 'education' and 'retail trade'. While 'manufacturing' has absorbed 30.40% of the female workers, 'education', and 'retail trade' engaged respectively 23.64% and 13.33% of the total female workers in the non-agricultural establishments with hired worker.

In rural areas, as has been revealed from Table No.4.12 that 5.98 million female workers, constituting 24.32% of total rural employment, worked in the non-agricultural establishments with hired worker. 92.05% of these were wage employees. Among various activity groups, 'manufacturing' had the largest share (38.22%) of female workforce in rural areas, followed by activity group 'education' (26.64%) and 'retail trade' (11.08%).

In urban areas, (table No.4.13), it has been observed that 5.80 million female workers worked in non-agricultural establishments with hired workers. Of these, 93.22% were hired workers. Activity group 'manufacturing' topped the list providing 22.33% of the total female employment of the non-agricultural establishments with hired worker in the urban areas. It was followed by 'education' (20.53%) and 'retail trade' (15.65%).

4.5.5.2 Child Workers

It has been observed from Table No.4.14 that there were 1.44 million child employees in non-agricultural establishments with hired worker constituting 2.32 % of the total employment in this area, of which 89.16% were hired workers. About 37.55% of these child workers were engaged in 'retail trade' sector, followed by 'manufacturing' (28.14%) and 'hotels and restaurants' (7.36%).

Child workers in rural areas (0.70 million) constituted 2.85% of the total rural workforce, of which 88.41% worked as hired labourer. Largest proportions of child workers in rural areas were engaged in activity group 'manufacturing' and 'retail trade' which constitute 33.64% and 34.38% respectively. In urban areas child workers (0.74 million) formed 1.98% of total workers. The activity group 'retail trade' absorbed maximum number of child workers (40.54%) followed by 'manufacturing' sector (22.93%).

4.5.6 SELECTED CHARACTERISTICS

Selected characteristics together with type of ownership of non-agricultural establishments by major activity groups have been given for rural, urban and combined in Table Nos. 4.15, 4.16 & 4.17 respectively.

4.5.6.1 Activity group wise type of ownership

It has been observed in the Table No.4.17 that in the owner category of 'Govt. & PSUs', 40.96% establishments were engaged in activity group 'education', followed by 'public administration and defense; compulsory social security'(20.18%). These were the two most significant activity groups, which, taken together constitute 61.14% of the total non-agricultural establishments with hired worker under 'Govt. & PSUs'.

About 72.93% of the non-agricultural establishments with hired worker owned by 'private non-profit institutions' were shared by three major activity groups viz. 'manufacturing' (11.48%), 'retail trade' (15.02%) and 'Other community, social and personal service activities' (46.43%).

Establishments under the ownership of 'private unincorporated proprietary & private unincorporated partnership', which constitute the largest share of establishments, were mostly engaged in two activity groups viz. 'manufacturing' (27.88%) and 'retail trade' (37.72%). These two activities taken together constituted 65.60% of the establishments with hired workers under this ownership. Among 'private others' owned establishments with hired workers majority (43.48%) belonged to the activity groups 'manufacturing' and 'retail trade'.

In rural areas (Table 4.15) majority of the non-agricultural establishments with hired worker owned by 'private non-profit institutions' and 'private others' pursued mainly the activities 'other community, social and personal service activities', 'retail trade' and 'manufacturing', whose combined shares were 76.70% and 54.26% respectively. In case of non-agricultural establishments with hired worker owned by 'Govt. & PSUs', 64.24% were engaged in 'public administration and defense; compulsory social security' and 'education', Further, it was observed that 'manufacturing'(33.90%) and 'retail trade'(34.14%) attracted the largest (68.04%) of the establishments owned by 'private unincorporated proprietary & private unincorporated partnership'.

In urban areas (Table No. 4.16) majority (65.77%) of the establishments owned by 'private non-profit institutions' were engaged in 'manufacturing', 'retail trade' and 'Other community, social and personal service activities'. Establishments owned by 'private unincorporated proprietary & private unincorporated partnership' confined to mainly two activity groups viz. 'retail trade' (40.06%) and 'manufacturing' (23.95%). Among 'Govt. & PSUs' owned category 59.54% establishments were engaged in 'retail trade', 'public administration and defense; compulsory social security' and 'education'. The maximum share (57.16%) under the ownership of 'private others' comes from the activities 'manufacturing', 'retail trade' and 'financial intermediation'.

4.5.6.2 Non-perennial establishments

There were 0.48 million non-perennial or seasonal establishments with hired workers, which constituted 3.47% of the total non-agricultural establishments with hired worker. About 67.63% of these establishments belonged to two major activity groups, viz 'manufacturing' and 'retail trade'.

In rural areas 0.36 million non-agricultural establishments with hired worker, constituting 5.47% were non-perennial. Among these establishments activity group 'manufacturing' and 'retail trade' accounted for the largest share (69.66%).

In urban areas there were 0.12 million non-perennial establishments with hired workers, which constituted 1.69% of the total. About 32.37% of these establishments were engaged in 'retail trade', followed by 'manufacturing' (28.47%), which taken together constitute 60.84% of the total non-perennial non-agricultural establishments with hired worker in urban areas.

4.5.6.3 Premises Status

About 1.39 million establishments with hired workers were found operating without fixed premises. It constituted 9.96% of total non-agricultural establishments with hired worker. Among these, the three most significant major activity groups viz., 'manufacturing', 'retail trade' and 'transport & storage' together contributed about 54.14% of the establishments operating without premises.

In rural areas 0.83 million (12.68%) establishments with hired workers operated without premises. Among these establishments activity group 'manufacturing' and 'retail trade' dominated with the combined share of 69.12%.

In urban areas only 0.56 million establishments (7.55%) were found operating without premises. 71.88% of these were engaged in 'manufacturing', 'retail trade' and 'transport & storage'.

4.5.6.4 Power/Fuel Used

About 9.28 million non-agricultural establishments with hired worker (66.54%) carried out their activities without using any power/fuel. Activity group 'retail trade' dominated all other

groups among these establishments and constituted 37.50% of the total. This was followed by activity groups 'manufacturing' and 'education' sharing 17.86% and 10.63% establishments with hired worker respectively.

In rural areas about 4.53 million establishments, accounting for 69.08%, operated without power/fuel. Most of these establishments were engaged in 'manufacturing', 'retail trade' and 'education', with the combined share of 66.21%.

In urban areas, 4.74 million (64.28%) establishments with hired worker operated without power/fuel. Majority of these establishments (45.03%) were engaged in 'retail trade' followed by 'manufacturing'(16.62%).

4.5.6.5 Social Group of Owners

It has been observed that the social groups SC, ST and OBC owned 5.51%, 2.18% and 29.85% of the total non-agricultural establishments with hired worker respectively. Owners belonging to all these three categories of social groups displayed a similar preference with regard to the major activity group of the establishment. 'Retail trade' was the most preferred activity, followed by 'manufacturing' and 'other community, social and personal service activities'. These three activity groups together accounted for 74.57%, 69.15% and 73.55% of the total non-agricultural establishments owned by persons belonging to SC, ST and OBC groups respectively.

In rural areas SC, ST and OBC groups owned 6.10%, 2.63%, and 30.06% establishments with hired workers respectively. The above three social groups owned maximum number of establishments in the activity group 'manufacturing', 'retail trade' and 'other community, social and personal service activities' with the combined share of 76.86%, 71.56% and 75.73% of the establishments owned by persons belonging to SC, ST and OBC groups respectively.

In urban areas the shares of establishments owned by persons belonging to social groups SC, ST and OBC were 4.98%, 1.77% and 29.67% respectively. Majority of these establishments belonged to the three major activity groups viz. 'retail trade', 'other community, social and personal service activities' and 'manufacturing'.

4.5.7 ESTABLISHMENTS (WITH HIRED WORKER) BY SIZE CLASS OF TOTAL EMPLOYMENT

The distribution of non-agricultural establishments with hired worker and employment therein by size-class of total employment has been given in Table 4.18. It has been observed that majority (86.56%) of the non-agricultural establishments belonged to employment size-class of 1-5 persons, whereas total number of persons employed therein was only 45.35% of total employment. On the other hand, non-agricultural establishments belonging to employment group of 6-9, having only 9.19% share in total establishments, accounted for 14.95% of the total employment. The highest employment group of 10 or more workers contains only 4.25% of the total establishments in this area accommodating 39.70% of the total employment.

The trend was almost similar in rural and urban areas. In rural areas the 1-5 persons group contains 88.35% of total rural non-agricultural establishments with hired worker with 49.82% employment, whereas the higher group of 10 or more workers contains only 3.71% establishments providing 34.77% employment.

In urban areas also the highest group of 10 or more workers has only 4.73% of total establishments providing as many as 42.93% employment whereas the 1-5 group contains 84.96% establishments with almost similar percentage of employment(42.42%).

Note: Percentage total may not tally due to rounding off.

It has been observed that Maharashtra had maximum number of non-agricultural establishments with hired worker (1.61 million) with a share 11.52% in the total. Tamil Nadu and West Bengal came next with 11.33% (1.58 million) and 9.94% (1.39 million) establishments respectively. The other states, which accounted for more than five percent of the total non-agricultural establishments, were Andhra Pradesh, Uttar Pradesh, Karnataka, Gujarat, Rajasthan and Kerala.

In rural areas, Tamil Nadu came at the top with the largest share (10.97%) of non-agricultural establishments with hired workers. However, West Bengal came next with 10.96%, followed by Andhra Pradesh (9.72%). There were six other States, viz., Maharashtra, Uttar Pradesh, Karnataka, Rajasthan, Kerala, and Orissa, each of which shared more than five percent of the total rural non-agricultural establishments.

In urban areas Maharashtra was at the top with 1.03 million establishments. It had shared 13.98% establishments followed by Tamil Nadu with 11.65% establishments. Uttar Pradesh and West Bengal came next, which shared 9.07% and 9.04 % respectively. Other states, which accounted for more than five percent share of establishments in urban areas, were Andhra Pradesh, Karnataka, Gujarat and Delhi.

4.6.2 EMPLOYMENT

Table No. 4.20 gives the State/UT-wise distribution of workers in non-agricultural establishments with hired workers together with component of female and child workers.

Among States/UTs Maharashtra had the maximum number of workers (7.79 million) which is 12.55% of total employment in non-agricultural establishments with hired worker. Andhra Pradesh, Tamil Nadu and West Bengal came next, each with more than 10% contribution to the total workforce in this area. Their percentage shares were 10.82% (6.72 million), 10.08 % (6.26 million) and 10.06% (6.25 million) respectively.

In rural areas Andhra Pradesh was at the top with 3.17 million workers accounting for 12.91% of the total rural employment in non-agricultural establishments with hired worker. West Bengal and Tamil Nadu held the second and third position with 2.73 million and 2.55 million workers respectively.

In urban areas Maharashtra had maximum number of workers (5.56 million) sharing 14.83% of total urban employment in non-agricultural establishments with hired worker. Tamil Nadu(9.89%), Andhra Pradesh(9.46%) and West Bengal(9.37%), each with more than 9% share came next in the order.

4.6.2.1 Female Workers

In terms of female employment Andhra Pradesh was at the top with 2.10 million female workers constituting 17.80% of the total female workers in the non-agricultural establishments with hired worker. Next below it were Tamil Nadu and Maharashtra with 1.79 million and 1.27 million female workers respectively. Kerala came next in order with a significant 0.98 million female workers.

In rural areas also, Andhra Pradesh again had the maximum number (1.10 million) of female workers with a share of 18.39%. Tamil Nadu held second position with 0.92 million female workers. Kerala and Karnataka came next in order with 9.90% and 8.13% share respectively.

Andhra Pradesh dominates the scenario in urban areas too with 17.18% share, followed by Tamil Nadu (14.98%) and Maharashtra (14.47%).

4.6.2.2 Child Workers

Among the States/UTs maximum number of child workers were employed in Maharashtra (0.36 million), followed by West Bengal (0.28 million) and Andhra Pradesh (0.23 million).

In rural areas maximum number of child workers (0.18 million) were found in West Bengal, sharing 25.02% of total child workers. It was followed by Maharashtra and Andhra Pradesh with 0.15 million and 0.07 million child workers respectively.

In urban areas child workers were found to be maximum (0.21 million) in Maharashtra sharing 28.45% of total child workers. Andhra Pradesh with 0.16 million and West Bengal with 0.10 million came next in this order.

4.6.3 RATE OF EMPLOYMENT

The average number of persons working in non-agricultural establishments with hired worker in different States/UTs has been given in table 4.21.

4.6.3.1 Total Workers

It has been observed that at all India level, on an average 4.45 persons were employed in a non-agricultural establishment with hired workers. It was found to be maximum (13.91) in Dadra & Nagar Haveli. Among states, Nagaland showed the maximum average of 8.68 persons. Bihar had the minimum number of workers per establishment with 3.08 persons.

In rural areas average at all-India level was 3.75 workers per establishment with hired workers whereas in urban areas average number of persons at all-India level was 5.09. In rural areas

Dadra and Nagar Haveli showed the maximum average of 17.57 persons per establishment, followed by Daman & Diu (15.89). In urban areas Chandigarh showed the maximum (10.93 persons) followed by Nagaland (10.62).

4.6.3.2 Female Workers

The average number of female worker in an establishment with hired workers for the country as a whole was 0.84. It was found to be highest (2.57) in Nagaland followed by Chandigarh (1.90). Again Bihar showed the minimum with the 0.35 average female employees.

The average number of female workers per establishment in rural areas was 0.91. The average was highest (2.36) in Daman & Diu, followed by Nagaland (2.22). It was found lowest in Bihar (0.39). In urban areas, Nagaland recorded the highest rate of female participation with 2.92 females per establishment, followed by Chandigarh (1.98).

4.6.3.3 Child Workers

At all India level average number of child workers was 0.10 per establishment. Among states/UTs it was found to be the highest in Maharashtra (0.22) followed by West Bengal (0.20). Six state/UTs showed average child labour per establishment almost zero.

Note: Percentage total may not tally due to rounding off.

4.6.5.1 Share of Hired workers

It would be seen that in terms of percentage share of hired workers to the total workers in non-agricultural establishments with hired worker, Lakshadweep was at the top with 97.21% share, followed by Dadra & Nagar Haveli and Sikkim with respective share of 96.61% and 93.50%.

In rural sector, Dadra & Nagar Haveli (97.92%) topped the list followed by Lakshadweep (96.69%). Among the States it was highest (96.27%) in Mizoram. In urban areas percentage of hired workers was highest in Lakshadweep (97.77%), followed by Dadra & Nagar Haveli (93.33%). Among States, highest was found in Sikkim (92.31%).

4.6.5.2 Share of Female Workers

At all India level, the female participation was found to be 18.97% in the non-agricultural establishments with hired worker. As regards State/UTs, Kerala dominated with 31.96% share of female workers, followed by Mizoram (31.46%) and Andhra Pradesh (31.18%). Female participation was found to be lowest in Dadra & Nagar Haveli (8.96%).

In rural areas Tamil Nadu was at the top with 36.23%, followed by Kerala (34.69%) and Andhra Pradesh (34.65%). In urban areas Mizoram was at the top with 32.24% female workers, followed by Meghalaya (29.08%) and Kerala (28.54%).

4.6.5.3 Share of Child Workers

At all India level, the percentage of child workers to total workers was found to be 2.32%. It was highest (4.61%) in Maharashtra, followed by West Bengal (4.43%).

4.6.6 SIZE CLASS OF TOTAL EMPLOYMENT

The State-wise distribution of non-agricultural establishments by size-class of total employment is given in Table 4.24.

Table 4.24 Distribution of Non-agricultural Establishments (with hired worker) by size class of total employment and by State/UTs

Sl. No.	States\ UTs	Size-class of Employment						
		1-5		6-9		10 or more		All Classes
		Number	% share	Number	% share	Number	% share	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
1	Jammu & Kashmir	100,703	86.23	10,167	8.71	5,915	5.06	116,785
2	Himachal Pradesh	70,897	82.70	8,235	9.61	6,597	7.70	85,729

35	A & N. Islands	6,108	81.30	792	10.54	613	8.16	7,513
All State/UTs		12,065,677	86.56	1,280,765	9.19	592,735	4.25	13,939,177

It has been observed that distribution of the establishments over different size-classes of total employment followed a similar trend in all States/UTs. Bulk of the establishments were found to be in the lowest size class of employment (1-5 persons). The percentage share of establishments gradually reduced with the increase in the size-class of employment. It has also been observed that Daman & Diu had the largest share (27.09%) of establishments in the highest size-class (10 & more persons). Among states, Arunachal Pradesh topped the list with 10.91% of its establishments with hired workers in the highest size class.
